

THA Architect Engineers Announces Newly Registered Architect

David J Bennett, has passed all nine tests of the National Council for Architectural Registration Boards ARE (Architectural Registration Exam). He is the first newly licensed architect in the Genesee County Area since 2005. Since joining THA Architects Engineers officially in 2001, (although he worked at the firm as a part-time student intern since 1994) David has worked on many of the firm's major architectural projects which have included the new Wade Trim building, currently under construction downtown, as well as numerous overseas educational projects being developed in the Middle East. He is currently a stockholder of the firm and maintains a seat on the Executive Planning Committee. David received his Bachelor of Science in Architecture degree from the University of Michigan and holds a Master of Architecture degree also from the University of Michigan.
